## Tables

When  
ALL Tables Turn  
Intelligent

Helios **new**

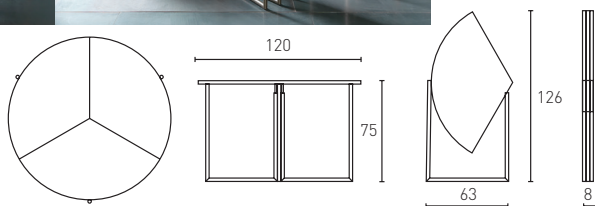

Helios, with its round top, is an extremely versatile table both in function and in design. The mechanism has been conveniently studied to transform from an alluring coffee table to a dining table, extending with ease for the family and guests. The metal base crossbreeds in a suggestive and pleasant linear visual effect.

Icaro **new**

Icaro will bring your expectations beyond imagination with its smart practicality. This table folds like an origami to free or decorate space following any need. A real gift for those who love dynamic and creative solutions in its house.

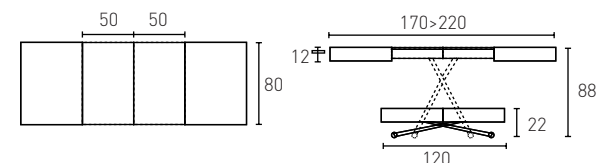

## Transformable Table

Ulisse **best selling**

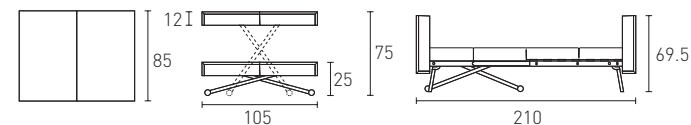

Our best seller, transforming coffee table, it turns into a dining table. Metal frame, gas lifting device, millimetre-adjustable height from cm 22 to cm 88, melamine, lacquered, stained wood, mortar-look or ceramic rectangular top, 2 inside extensions. Under-base wheels.

Tavoletto

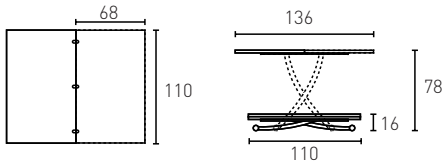

Transforming coffee table, it turns into a dining table or into a bed, metal frame, gas lifting device, millimeter-adjustable height from cm 25 to cm 75, melamine, wood or mortar-look rectangular top.

Bessy

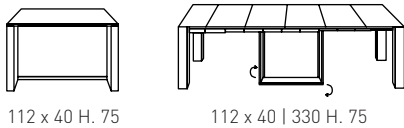

Transforming coffee table which turns into a dining table. Metal frame, gas lifting device, millimetre-adjustable height from cm 16 to cm 78, melamine, glass, lacquered, stained wood, mortar-look or ceramic doubling top. Under-base wheels and side translation castors.

Micro

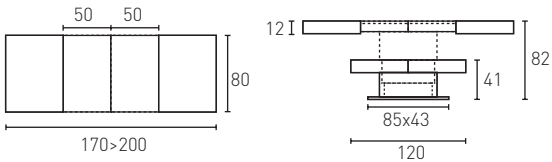

Extendable eco wooden console table with 4 extensions placed in the pivoting central leg. Aluminum telescopic mechanism and wheels under the feet for a simple use.

Ares Fold

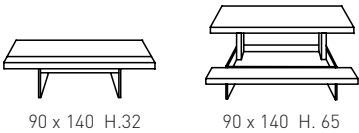

Transforming coffee table which turns into a dining table, steel central column, gas or electric with rechargeable battery lifting device. Millimetre-adjustable height from cm 41 to cm 82, melamine, lacquered, stained wood, mortar-look or ceramic rectangular top, 2 inside extensions. Hidden under-plate castors.

Markus

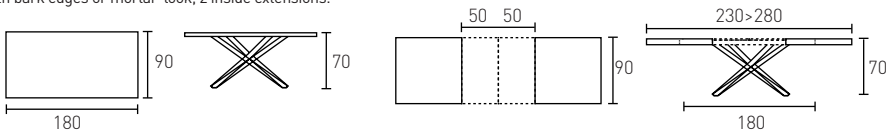

Transforming coffee table. Thanks to its large dimensions, Markus enables all those activities that require a large space, such as working on a PC, looking at an iPad, writing or having a tea break, much more than a simple table.

Fahrenheit

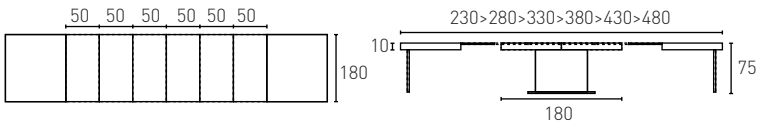

Metal frame extending dining table, top in melamine, wood with bark edges or mortar-look, 2 inside extensions.

Tower Maxi

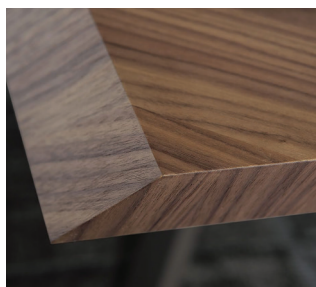

Extending dining table with metal base, top in melamine, wood or mortar-look, 6 lateral inside extensions, supporting folding legs.

## Transformable Table

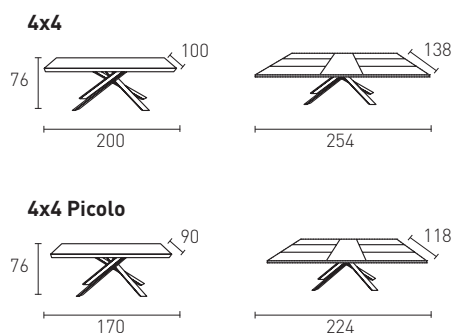

reddot design award  
winner 2016

## 4x4 by Giulio Manzoni

The revolutionary table designed by Giulio Manzoni wins the prestigious award - Red Dot Design Award 2016.

The new table 4x4 presents an exclusive opening system. The product changes its shape and outlook because of the extensions that, once opened, cross the veins of top and give an elegant leitmotif. Metal frame extendable dining table with wooden top and extensions, metal sliding mechanism.

type: dining | configuration: rectangular  
style: contemporary  
material: metal, wooden  
options: extending

# SPACE

## Kitchen

Bora  
Smart Kitchen

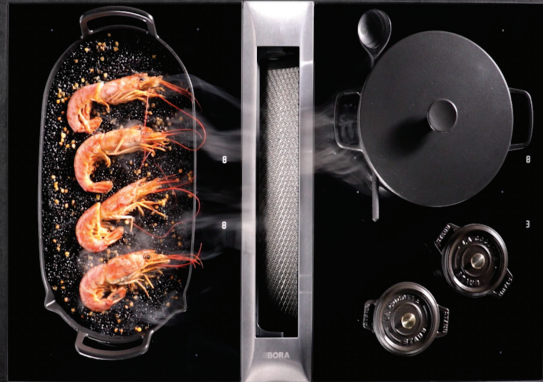

We nip cooking vapours and odours in the bud by drawing them off where they arise: directly at the cooktop, from the saucepan, roaster, frying pan or grill. And we do this not by magic, but by applying the basic principles of fluid mechanics. We simply use a cross flow which is greater than the rising speed of the cooking vapour.

## Bora Professional 3.0

With the BORA Professional 3.0, we combine a minimalist design and premium materials to create an eye-catching highlight in the kitchen.

### Unique advantages for greater freedom in the kitchen.

-  Cooking while surrounded by fresh air
-  Effective and quiet
-  Simple cleaning
-  Saving energy is made easy
-  Quality 'made in Germany & Austria'
-  Design freedom without disruptive extractor hoods
-  A clear view when cooking

For more info kindly visit [www.mocof.com.my/kitchen](http://www.mocof.com.my/kitchen)

## Bora Basic

A revolution for every kitchen.

Starting from the potent combination of a powerful cooktop and an effective cooktop extractor, we created BORA Basic, an attractive unit with an unusual design. This innovation is the first of its kind in the world; with its attractive price-performance ratio, it is heralding the end of the extractor hood at last. BORA Basic gives everyone the chance to enjoy the advantages of BORA – successfully taking their first steps toward a high-end kitchen. The easy-to-operate power electronics, which were specifically developed by BORA, are also a testament to the exceptional value of the compact unit.

### Unique advantages for greater freedom in the kitchen.

Cooking while surrounded by fresh air

Effective and quiet

Simple cleaning

Saving energy is made easy

Quality 'made in Germany & Austria'

Design freedom without disruptive extractor hoods

A clear view when cooking

### BIU

BORA induction glass ceramic cooktop with 4 cooking zones and a cooktop extractor – recirculation

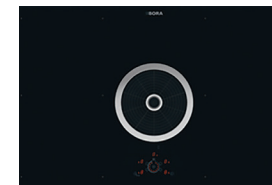

#### Cooktop:

- Power setting
- Automatic cut - out
- Timer function
- Residual heat display
- Pan size recognition
- Childproofing feature

#### Extraction system:

- Power control via touch
- Automatic continued running (10 min.)
- Automatic safety shut down
- Filter service display

- Please note that induction cooktops require special induction - capable cookware.
- Connection cables must be made available on - site.

### BFIU

BORA surface induction glass ceramic cooktop with 4 cooking zones and a cooktop extractor - recirculation

#### Operation:

- Touch-operated round slide control

#### Cooktop:

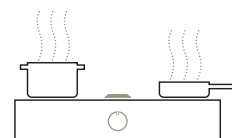

- Automatic heat up function
- Bridging function
- Power setting for all cooking zones
- Timer function
- Residual heat display
- Pan size recognition
- Pause function
- Heat retention function
- Childproofing feature
- Safety shut-down
- Power management is only possible at the front or rear on each side

#### Extraction system:

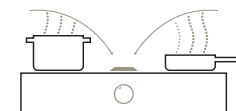

- Energy-saving fan (EC-motor)
- Freely adjustable power control
- Automated cooktop extractor function
- Automatic after-run
- Safety shut-down
- Filter service display
- Interface for external devices via Home In or Home Out
- Power setting

### The BORA principle.

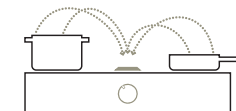

Or – physics can be so ingenious.

Cooking vapours rise at a maximum speed of one metre per second.

The BORA cooktop extractor draws off the vapours in a download direction at about four metres per second.

The higher cross flow suction draws away cooking vapours and odours effectively and directly at the cooktop.

For more info kindly visit [www.mocof.com.my/kitchen](http://www.mocof.com.my/kitchen)

## Bora Professional

Functionality meets design. When the need for functionality meets a strong appetite for design, the ambitious cook chooses BORA Professional. The BORA Professional cooktop extractor system boasts: our largest selection of the most powerful cooktops – extra-deep at 54 cm, the cooktop extractor, rotary knobs made of solid stainless steel, and a variety of options that gives you extraordinary design freedom.

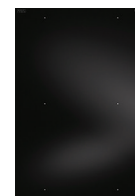

**BORA Professional is a combination of a high-quality extractor and powerful, extra-deep cooktops.**

### PL540E

BORA Cooktop Extractor

- Freely adjustable power control
- Power control using solid stainless steel control knob
- Integrated cover flap
- Installation type: flush and surface-mounted
- Stainless steel grease filter
- Cooking zone indicator
- Automatic after-run
- Filter service display
- Safety shut-down
- Interface for external devices via Home In or Home Out
- Ability to connect two BORA fan modules

### PF111

BORA surface induction glass ceramic cooktop with 2 cooking zones

- Heat retention level
- Power setting
- Bridging function
- Residual heat display
- Pan size recognition
- Automatic pre - cook valve

- Childproofing feature safety deactivation
- Please note that with induction cooktops, induction-compatible cookware must be used.
- Ensure that there is sufficient ventilation below the induction cooktop.

### PT11

BORA Tepan stainless steel grill with 2 cooking zones

- Full - surface Tepan stainless steel grill with 2 cooking zones
- 6 mm deep - drawn, brushed stainless steel with rounded interior edges for easy cleaning
- Freely - adjustable temperature regulation of both cooking zones separately possible
- Childproofing feature

## Bora Professional Revolution 2.0

The symbiosis of innovation, aesthetics and effectiveness

The new BORA Professional was developed on the premise of combining simplicity, functionality and optimum performance in a single, electronically controlled system. The heart of the Revolution 2.0 is the user interface which allows the cooktops and the cooktop extractor to communicate with one another. This enables us to achieve optimum user friendliness and outstanding effectiveness. Everything is made possible by an intelligent control knob: from power control to the various function programmes to the temperature indicator.

### Bora Professional 2.0

BORA Professional is a system solution that offers uncompromising quality in every last detail. The innovative EC motor technology enables class A++ energy efficiency.

- The motor and cooktop extractor come as a compact unit for floating worktops
- Minimum installation height of 199 mm for compact systems enables the greatest design freedom
- Electrically controlled extraction flap on the cooktop
- Largest selection of powerful cooktops with an impressive depth of 54 cm and 20% more net cooking surface area than conventional cooktops
- Deeper-set gas cooktops with the highest efficiency even when operated with gas
- Intelligent control knob with integrated function programmes
- Cooktop and cooktop extractor communicate with one another for optimum performance
- Maximum net cooking surface area thanks to knob operation
- Simple cleaning thanks to the wide extraction opening and easily removable filter and tray
- Optimum grease particle capture rate and 100% functional guarantee on the complete BORA system

### Components of the BORA Professional 2.0 sets

#### The BORA Professional 2.0 sets – cooktop extractor system with two cooktops

BENEFITS TO YOU: one order number, one price.

- The latest motor technology, low-noise EC motors
- Maximum storage space in the floor unit through a low appliance height of only 199 mm
- Compact unit with integrated fan enables floating worktops and low plinth heights
- Extra-deep 54 cm cooktops provide space for two very large pots or pans to sit one behind the other
- Large flat 230 x 460 mm induction cooking zones (PKASFI and PKASFIT set)
- Powerful tepan cooktop with precise temperature regulation, cleaning function and optimum heat distribution through micanite surface heating elements (PKASFIT set)
- Automatic-opening electric cover flap with integrated sensor
- Intelligent control knob with integrated function programmes and digital display
- Stainless steel grease filter in proven BORA quality materials, dishwasher-safe
- Can be surface-mounted or flush-mounted
- Suitable for recirculation or exhaust mode
- Recirculation: can be combined with BORA ULB1 or ULB3 air
- Exhaust air: can be combined with the BORA Ecotube duct system and the BORA 3box wall sleeves purification box

### Cooktop Extractor System PKAS BORA Pro 2.0 Cooktop Extractor

- Control knob for power control
- Power display
- Electrical cover flap
- Cover flap sensor
- Stainless steel grease filter
- Grease filter sensor
- Automatic cooktop extractor function
- Automatic after-run
- Filter service display
- Interface for external devices
- Safety shut-down
- Ability to connect an additional
- BORA Universal fan module

### Cooktop PKFI 11

BORA Pro 2.0 surface induction glass ceramic cooktop with 2 cooking zones

- Heat retention function
  - Power setting
  - Bridging function
  - Residual heat display
  - Pause function
  - Timer function
  - Configuration menu

## Airforce Induction

TKitchenette or kitchen island, family recipes or 3-star menu: Kitchens and cooking habits are as different as the people who cook there. You are already familiar with our product lines, but you could not decide which BORA is the right one you. This is why we want to help you and make deciding a little easier. With just four clicks, you can find out which BORA systems fit best into your kitchen, making them the right ones for you and your requirements. First choose your main criterion. Then limit the results as needed using other criteria.

### Washable grease Filters

Our grease filters can be washed for a perfect cleaning, keeping their performance constant in time.

### Digital Display

These kitchen hoods are equipped with a display that makes the use easier by showing the operating speed, the saturation of the filters, or the timer, if in use.

### Touch control

The Touch Control panel allows you to access all functions of the kitchen hood system just by touching the icons, making the use, service and cleaning of the hood easier.

### Energy saving

Thanks to technologies that Airforce has developed especially for our engines and lighting systems these kitchen hood systems have high performances and very low energy consumption.

### Filter change

The indicator of saturation of the grease filters and of the active charcoal filters alerts the user of the need to clean or replace them, allowing to keep the exhaustion of the kitchen hood system at excellent levels.

### Zero-Moisture System

When the kitchen hood is set in the recycling mode, after having turned it off, it will continue working for another 20 min at the first speed, in order to ensure the evaporation of any humidity left after cooking.

For more info kindly visit [www.mocof.com.my/kitchen](http://www.mocof.com.my/kitchen)

Made to Order

**new**

# LAGO

## FLOATING FURNITURE

LAGO designs and produces modular furniture entirely "Made in Italy" to offer a range of furnishings suitable not only for rooms in the home, but also for public spaces such as hotels, restaurants, shops and workplaces

LAGO offers a complete range of products and innovative systems for furnishing any room in the home: living room, bedrooms, kitchen and bathrooms.

We make furniture for the whole house and design spaces that empathise with the people who live in them. Give shape to your home with LAGO furniture: modular furniture solutions for every room, always in tune with your needs.

Air Bed	
	Air Shelving
Air Sofa	
	Air Table
Air Kitchen	

# Air Bed

AN AIRY,  
MODERN BED

The effect of the floating, ethereal Air bed is created by the absolute transparency of the extra-clear tempered glass that supports it. The bed seems to levitate off the ground, creating the feeling of sleeping in a cloud. The platform of the bed is suspended on four nearly invisible glass legs that give it a strong feeling of lightness. In all of its sizes, double, single and three-quarter, Air is an elegant, refined bed perfectly suited to any interior.

The Air bed, picking up the concept of the Air sofa, is highly transformable: components like back rests, shelves and drawers can be attached to the frame at any point, and you can even add a shelf that runs along the entire perimeter.

Moreover, installing a light under the base of the bed, you can create an evocative theatrical effect.

#### FEATURE

- Lightness
- Tempered Glass
- 1 Bed, 2 Heights
- Accessoriable Frame

# Air Shelving

## WOODEN SHELVING THAT FLOATS IN THE AIR

Wooden Air shelving changes the relationship between solid and void. The shelves, in lacquered wood or Wildwood oak, contrast with the total transparency of the glass supports, creating an extraordinary feeling of lightness. The shelving seems to float in the air, letting the light filter through to fill the room with light and render the space airy.

Free-standing and finished on both sides, Air shelving can also be used in the middle of the room to divide space in an elegant, airy way. No wall attachment is needed and so it can also be set up in front of walls with special decoration.

### FEATURE

- Resistant Glass
- Floating Volumes
- Self-Standing
- 2-Faced
- Expressive & Reconfigurable

# Air Sofa

## THE MODULAR SOFA TAILORED TO YOUR SPACES

The Air sofa's greatest strength lies in its modularity: choose your own depth and back rest height, mixing fabrics and hues, to create a sofa tailored to your own comfort and your own personality. Thanks to the Air sofa's patented fastening system, you can create a unique sofa that, taken apart and reconfigured, can transform into three armchairs or two sofas, depending on how the frames, seats, back rests and arm rests are assembled. A linear sofa can thus become an elegant peninsula, a comfortable guest bed or a chaise longue, just by rotating the modules.

As an alternative to legs in extra-clear tempered glass, six times more resistant than normal glass, Air sofa is also available with elegant metal supports. Both these solutions create a floating effect, lending lightness to any room.

### FEATURE

- Glass Legs
- Metal Supports
- Compositional Freedom
- Patented Coupling
- Reconfigurable
- Eco-Sustainability

# Air

# Table

**ELEGANT AND AIRY,  
DESIGNED FOR THE LIFE  
THAT HAPPENS AROUND IT**

Essential and surprising, the Air table seems to float in the air. Two almost invisible glass legs support the table top, which seems suspended in mid air. The extra-clear tempered glass creates a sensation of airiness and brings light to the room.

The table top is available in a range of finishes, each one capable of filling the interior with personality: from the warmth of wood in the Wildwood version to the refinement of coloured glass, the Air table complements different contexts and styles with originality.

- FEATURE**
- Tempered Glass
  - Customisable Ends

# Air Kitchen

**A ROUND ISLAND KITCHEN  
WITH INTEGRATED BURNERS**

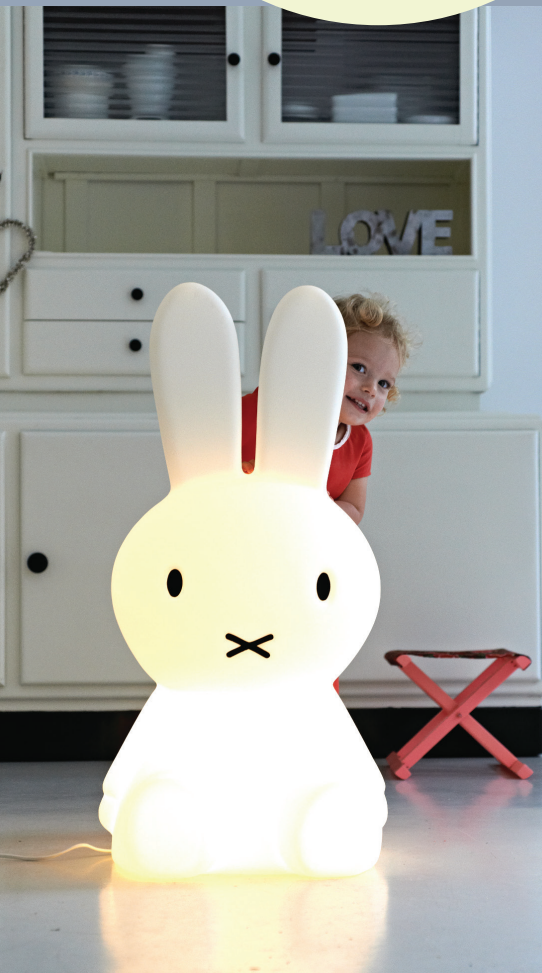

Conviviality and empathy in the form of a circle. Air goes beyond the model of a kitchen with islands and peninsulas, integrating the burners into the top of a circular table and bringing the act of cooking back to the centre of domestic relations: an ideal solution for integrating the kitchen and living room. Suspended on Extrachiaro tempered glass legs and with an integrated induction hob, it can be combined with the 36e8 kitchen system. Differently sized tops, available in lacquered glass, Wildwood and XGlass, mean it can be used in any room.

- FEATURE**
- Suspended On Glass
  - Peninsulars
  - In Harmony With The Living Space

# FLYTE

FLYTE is a levitating light which hovers by magnetic levitation and is powered through the air. Designed in Sweden, the FLYTE base is made of quarter-sawn oak, ash and walnut wood finishes. We want your FLYTE to look good, feel good and last a long time. We use energy efficient LEDs rated at about 50,000 hours. That's 12 hours a day for 11 years!

Story Oak

Walnut

STORY is the world's first levitating timepiece allowing you to personalize your most unique journeys. STORY consists of a magnetically levitating sphere that orbits around a wooden base telling the time.

The base contains a backlit display that illuminates through the wooden surface, giving it a seamless look and finish.

For extended features, connect STORY to the cloud for using our mobile app and illuminate realtime data through STORY's backlit display.

The Best Bed Sheet in Malaysia for High-Quality Sleep. Sleeping has and always will be the most integral part of human lives. Your quality of sleep determines your quality of life. The better you sleep, the better life gets. It is as simple as that. The question is, how can we ensure that YOU get your quality sleep. It all starts with the bed sheet set.

How can a bed sheet brand achieve this? Through the deliberate process of creating a bed sheet that caters to all. MOCOF accomplish this by ensuring the highest quality in every aspect, and these bed sheets come in gorgeous designs

to hopefully inspire you and your loved ones. The variety of patterns from our bed sheet collection allows more flexibility in creating the mood and can turn any bedroom into one that is uniquely yours.

TUSCAN HERITAGE

TAILOR-MADE LUXURY

THE ART OF DREAMING

# Tailor-Made Luxury Tuscan Heritage

SIGNORIA  
FIRENZE

The reputation of the company developed through the years, thanks to the attention to detail, quality and design typical features of the 'Made in Italy' trademark.

In the 1980's, the brand expanded into the international market and yet it's still firmly rooted in its artisan origins. Till today, all of its collections are still designed, cut, sewn and packaged in our premises in Tuscany.

## New Era of Luxury Bedding

### Type of Bedding:

- Plain and Embellished

## Designer Edition

*From Fashion to Bedding*

“ FIZIWOO is a luxury Malaysian brand founded by Hafizi Radzi Woo and Izree Kai Haffiz. MOCOF hope to bring fashion for all bed linen lover and vice versa and also to instill the importance of fashion in luxury bedding. Your favourite fashion piece could be made from your favourite linen fabric and therefore the born of the concept from bed to fashion ready wear. ”

MOCOF x   
FIZIWOO

# Mocof Signature

We offer lifestyle concept, best quality of bedsheets. One of the most important considerations when it comes to choosing bedsheet fabric is its thread count, which is the most visible factor. Other considerations are the ply of the fabric and the type of weave of its fibers. We always believe that a good night sleep start from good bedsheet.

## Tencel™ Series

- **Bedsheet Range**
- **1200 & 1600 Thread Count**

### Advantages of TENCEL™ Fabric:

- Silky & shiny, eco print, feel of fabric, colour rich
- Moisture absorbent, anti-bacterial, great for sensitive skin
- Versatile, environmentally friendly, biodegradable fabric, durable

TENCEL™ is a natural, man made fibre which is also referred to as Lyocell. Made with wood pulp from sustainable tree farms, TENCEL™ textiles are created through the use of nanotechnology in an award-winning closed-loop process that recovers or decomposes all solvents and emissions

## Egyptian Cotton

- **Bedsheet Range**
- **1200 & 1600 Thread Count**

Egyptian Cotton is hand picked so it's less stress on the fibres, leaving them straight and intact. It consists of finer threads which can be woven into very fine yarns with a finer and more consistent finishing, ending up as a softer and more flexible fabric without sacrificing its length.

### Advantages of Egyptian Cotton:

- Soft & gentle
- Handpicked fibres
- Long-lasting durability
- Helps in improving sleep

## Pure Cotton

- **Bedsheet Range**
- **840 Thread Count**

Generally, cotton is divided into three types: Upland Cotton, Egyptian Cotton and Pima Cotton. The most common type of cotton is Upland cotton, making up 90% of the cotton used. A 100% pure cotton bed sheet or cushion cover is more durable, softer and easier to care for.

### Advantages of Pure Cotton:

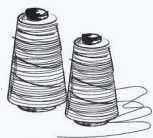

- Natural fibers, free of chemicals,
- Breathable, great option for hot weather
- Hypoallergenic and does not irritate skin

# Custom Made Series

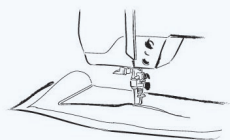

## Fibre

The longer the cotton fibre, the smoother the thread, the better quality the fabric.

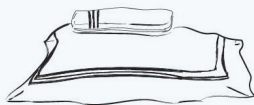

## Feel

Cotton Sateen has a silky soft, cosy feel, choose the right sheets based on how you like to sleep.

## Fabric

The finishing process, not thread count, dictates the silkiness of the fabric.

## Finish

Mocof Fabric go through a delicate finishing process for their signature smooth hand and lustre. They're Italian-made in this Egyptian cotton.

## Custom Made Range:

A good night sleep starts from good bedsheet. Start pampering yourself with the customised bedsheet for your mattress. Our bedsheet helps you in having peaceful sleep and promotes skin rejuvenation instantly. Design your own bedding sheets using the optional thread, colors as well as pillowcases which comes in a set for a totally unique night's sleep. Perfect way to make bedtime extra special.
